

UltraVu[®] 2360

THERE'S A WORLD OF OPPORTUNITY OUT THERE.

VUTEK[®] it.

The new and improved UltraVu[®] 2360 family of two-meter super-wide digital printers now offers higher speeds and an eight-color model.

- Available in four-, six- and eight-color models.
- Eight-color model allows easy conversion between super-fast-quality printing and photo-quality printing.
- The eight-color model can be configured in two ways:
 - 1) Two channels per color (CMYK) for high-speed, four-color outdoor applications,
 - 2) One channel per color (CMYK, plus light cyan, light magenta, light yellow and light black) for significantly enhanced, photo-realistic eight-color images.
- Prints on a wide variety of substrates, including vinyl, pressure-sensitive, paper, mesh and textiles.
- Prints up to 6.7 feet (2 meters) in width.
- 720 dpi resolution (360 dpi addressable) produces images that are sharp, crisp and consistent.
- Prints up to 1600 square feet (148 sqm) per hour.

We provide the industry's best service and support:

- Factory training
- 24/7 technical support
- Applications assistance
- Marketing tools

- billboards
- point-of-purchase advertising
- banners and signage
- posters
- exhibition graphics
- backlit displays
- display graphics
- fleet graphics
- vehicle graphics
- bus shelters
- bus wraps
- telephone kiosks
- wall murals
- street furniture
- long-term outdoor graphics
- stage graphics
- flags

UltraVu® 2360 Product Specifications

Printing Technology:

- Piezo drop-on-demand inkjet technology
- 720 dpi apparent resolution (360 dpi addressable)
- One-year printer warranty (includes piezo inkjet heads, which are not considered to be consumables with VUTEK printers)
- Extended ink-system warranty available using VUTEK inks
- Heads require minimal maintenance
- 24/7 technical support

Media/Handling:

- Size: rolls with 82" (208 cm) maximum width, 80" (203 cm) maximum print width
- Type: vinyl, pressure-sensitive, paper, mesh and textiles
- Optional unwind and rewind accessories available

Print Models:

- The UltraVu® 2360 can be purchased in three variations:
 - Four-color
 - Six-color
 - Eight-color, switchable to Fast-4™ color
- Four-color and six-color models are upgradeable

UltraVu® 2360 RIP:

- Excellent color reproduction to match original artwork
- Intuitive graphical user interface for easy operation and calibration
- Multi-language graphical user interface
- Gamma control over global brightness

Additional RIP Features:

- ICC color management
- Light CMYK support for smooth highlights to mid-tone transitions, improved color quality, and increased apparent higher resolution
- Tiling feature to simplify complex printing jobs

Formats:

- All popular desktop file formats, including PostScript®3™, EPS, TIFF, PDF, RGB/CMYK

Control Station:

- Windows® operating system 2360 control station with:
 - 2360 operating software
 - 18 GB hard disk
 - DVD Reader
 - 256 MB of memory
 - 1 GB Ethernet adapter

Environmental Considerations:

- Compressed Air: 80 psi (5.63 kg/cm) minimum, 150 psi (10.56 kg/cm) maximum
- 2 cfm (0.056 m³/m) dry air only
- Temperature: 68° F to 85° F (20° C to 29° C)
- Humidity: 20% to 80% (non-condensing)
- Weight: 3755 lbs. (1703 kg) featuring lightweight Uni-Frame construction

- Height: 5'2" (158 cm)
- Width: 13' (396 cm); 16'2" (494 cm) with work station
- Depth: 4'2" (128 cm)
- Electrical: 3 phase, 30 amps (4 or 5 wire), 200-240 VAC, 50/60 Hz

Inks:

- VUTEK supplies ink in four 3.25-liter bottles in cyan, magenta, yellow, black, light magenta, light cyan, light yellow and light black
- VUTEK inks are solvent based and carry a two-year warranty (extended to a five-year warranty with Aquashield)
- VUTEK also supports 3M's five-year MCS, Hunt five-year soft-sided fleet, and Hunt/Avery five-year fleet warranties

Productivity:

Print output speed in square feet/square meters per hour:

<u>Model</u>	<u>Mode/Speed</u>
