The EFI™ VUTEK® GS3250LXr Pro LED roll-to-roll printer meets specific requirements for the production of fleet and vehicle graphics, and much more, with true grayscale print capability, high image quality, EFI VUTEK GS�xr 3M™ SuperFlex UV Ink and the power of LED.

SuperFlex Your Business With LED Roll-to-Roll Printing

- Produce fleet and vehicle graphics at 1,600 square feet (149 square meters) per hour in 600 dpi, grayscale and light smoothing mode
- Print on a wide range of flexible substrates with fewer process steps
- Produce high-margin, closely viewed graphics with six colors and true variable-drop grayscale print capability
- Get better results with EFI VUTEK GS�xr 3M™ SuperFlex UV Ink that exhibits solvent-like elongation characteristics and withstands heat installation without cracking
- Warrant printed output with the 3M™ MCS™ Warranty when using co-branded EFI and 3M™ UV inks printing on 3M™ flexible media¹
- Offer an extended color gamut and ensure maximum reliability and performance with your VUTEK system
- Increase up time and productivity with LED's instant on/off and less maintenance
