Versatile, efficient, cost-effective and environmentally friendly

Produce more jobs, extend your application offering with more substrates and lower your operating costs with the EFI™ VUTEK® GS3250LX Pro with UltraDrop™ Technology. Very cool!

Overview Features Specifications Applications Resources Support

This versatile, efficient, cost-effective and environmentally friendly printer comes fully-loaded with LED technology, UltraDrop™ Technology, rigid and roll-fed printing capability, white ink and single-pass multilayer printing to name just a few. Pretty cool!

Profit from the cool capabilities of LED

- Eight colors plus white ink printing for high-margin jobs.
- Extended range of supported substrates with LED curing.
- UltraDrop™ Technology offers smaller drop sizes and more precise control with native 7pL print heads and true multidrop addressability in each dot position
- High apparent resolution and high-definition quality with four-level grayscale and two ink density levels.
- Outstanding smoothness in shadows, gradients and transitions.
- Superb text quality with four-point text in both standard and knockout with fewer satellites and more clarity in all print modes.
- Single-pass, multilayer print capability for even more profit opportunity.
- Increased up time and productivity while reducing maintenance with instant on/off LED lamps.
