

Miller Weldmaster T-300 Extreme combines versatility and precisely controlled operating parameters within an ergonomic design and interface for easy operation, speed, accuracy, and productivity.

Power of the T-300

- Weld rollers are independently controlled which helps produce an expanded range of products and materials
- Easy operation with our touch screen and 25 memory settings
- Guides and accessories to weld hems, overlaps, hem with rope...
- Equipped with dual arms: The Table Arm takes care of straight seams for applications like tarps, awning and tents; the Curve Arm manages curves and unique shapes for applications like boats and inflatables
- Built with one-person operation in mind
- Comes furnished with the new Seam Screen. It allows users to digitally control all welding parameters in up to eight different languages
- Quick, repeatable, precision head adjustments
- Utilizes both the Hot Air and Hot Wedge rotary heat sealing systems
- Solid steel frame makes it the most durable system on the market today

Specs

Seam Width: 10 to 50mm
