

Experience faster print speeds and unprecedented ink coverage that minimizes the cost of printing. Print outdoor signage at industry-leading speeds as well as high-quality indoor signage with this innovative, 5m (16.6 ft), dual-mode UV printer.

Reduce the cost of printing

- **Save money on ink—increase your savings over time with unmatched, high ink coverage.**²⁾ Increase the return on your investment with high ink coverage—up to 180 m²/liter (1,940 ft²/liter). A combination of the HP Specialty Billboard ink and the UV ink printing system delivers better ink coverage than comparable solvent and UV ink printing systems.
- **Save money on media—reduce expenses with the ability to print directly on inexpensive certified media**⁴⁾ The initial purchase price for hardware is just a small part of your business's total cost of ownership. Over time, the cost of ink and media plays a more significant role. The super-wide format HP Scitex XP5300 Printer prints on inexpensive media such as polyethylene up to 5 m (16.6 ft) wide.
- **Save time and money and control operating expenses.** With increased throughput, you produce more in less time using one extremely productive printer, saving floor space and operator costs and reducing the number of shifts required for your 24/7 business.

Deliver faster with industry-leading print speeds¹⁾

- **Save time and deliver more with industry-leading print speeds.**¹⁾ Designed for high-speed, robust production environments, the HP Scitex XP5300 Printer's high print speeds set it apart from its competition and enable faster turnaround times. Ideal for outdoor signage or other outdoor applications, print at up to 300 m²/hr (3,200 ft²/hr) in Billboard Mode using HP Specialty Billboard Scitex Ink.
- **Unload printed media quickly with the HP Scitex XP5300 On-core Collector.** Improve your productivity with the standard HP Scitex XP5300 On-core Collector. The On-core Collector rolls finished output onto an empty core—a simple and practical feature. The core and printed media can be removed from the On-core Collector and transferred to the finishing process.
- **Capitalize on the printer's productivity with the HP Scitex XP5300 Multi-roll Printing Kit.** Take advantage of the printer's capacity and be more productive. Print different files simultaneously on three different rolls, each up to 1.6 m (5.2 ft) wide, for high-speed production. With the innovative HP Scitex XP5300 Multi-roll Printing Kit, each roll is handled individually, making it possible to load rolls with slightly different diameters.

¹⁾ Print quality may vary depending on media type and print mode.

²⁾ Based on tests held in February 2007.

³⁾ Optional. Must be ordered separately.

⁴⁾ For further information on certified media substrates, please visit: www.hp.com

One platform, two productive printing modes

- **Print vivid, high-quality point-of-purchase displays.** For indoor signs that stand up to close examination, select one of the Standard Modes, which use HP XP222 Scitex Ink. Produce high-quality indoor signage, point-of-purchase materials, and displays.
- **Deliver outdoor signage without the wait.** To decrease your printing costs and increase your turnaround time, select one of the Billboard Modes, which use HP Specialty Billboard Scitex Ink. This specially formulated ink provides media versatility and operational efficiency for outdoor applications.
- **Provide more choices for your clients and opportunities for your business.**³⁾ Expand your business with the optional HP Scitex XP5300 Double-sided Printing Kit for backlit and blackout applications. The printing software enables manual and automatic correction to ensure precise printing.
- **Customize your glossy prints with the standard HP Scitex XP5300 Shutters Control Kit.**¹⁾ Fine tune your glossy prints and get the look you want with the standard HP Scitex XP5300 Shutters Control Kit. This kit controls the UV exposure, delaying the curing process and producing glossier prints.

Rest assured with a proven industrial platform

- **Designed for high-volume industrial environments.** With robust media loading and collecting features and a heavy-duty frame, this printer is designed for production environments that operate 24/7.
- **Rely on an industry-renowned, proven product.** Count on a proven product line used worldwide.
- **Your printer is available and productive with HP Scitex support, a name you know and trust.** At HP, we are fully committed to our clients' long-term success. We are as serious about supporting our clients with top-quality care as we are about providing world-class printing systems. That means we are committed to ensuring that you enjoy maximum uptime and productivity. All HP Scitex programs and services are designed with that single goal in mind. Wherever you are, you can be sure that HP Scitex-certified experts are close by and ready to help.

Technical specifications

Print speed	Up to 300 m ² /hr (3,200 ft ² /hr), 1 pass
Print resolution	Up to 360 dpi
Media	
Handling	Roll-to-roll (integrated collection system, on-core collector), roll-to-freelfall, multi-roll printing
Types	Polyethylene, paper, mesh, vinyl, textiles, blue back paper, SAV, banner material, synthetic paper, Tyvek, Yupo, and others
Size	Roll-fed media up to 5 m (16.6 ft) wide
Roll loading	Up to 1,500 kg (3,307 lb) rolls with 76 mm (3 in) or 152 mm (6 in) cores ² , up to 400 mm (16 in) outside diameter
Multi-roll	Print simultaneously on up to 3 rolls
Printing	
Technology	Drop-on-demand, piezoelectric inkjet
Ink types	UV-curable pigmented inks
Ink colors	Cyan, magenta, yellow, black: 4-color Billboard and 4-color Standard inks
Print heads	16 total (4 per color)
Outdoor durability	Up to 2 years UV and water resistance ¹
Ink coverage	Billboard mode: 180 m ² (1,940 ft ²) per liter ³ Standard mode: 95 m ² (1,022 ft ²) per liter
Ink drop	80 pl
Printing modes	4-color Sample Mode 40 m ² /hr (430.5 ft ² /hr) 4-color Fine-Press Mode 50 m ² /hr (538.2 ft ² /hr) 4-color Press Plus Mode 80 m ² /hr (861.1 ft ² /hr) 4-color Hi-Press Mode 105 m ² /hr (1130.2 ft ² /hr) 4-color X-Press Mode 150 m ² /hr (1614.6 ft ² /hr) 4-color Billboard Mode 105 m ² /hr (1130.2 ft ² /hr) 4-color Billboard Mode 240 m ² /hr (2583.3 ft ² /hr) (high coverage) 4-color Billboard Mode 300 m ² /hr (3230 ft ² /hr) (high coverage) 4-color Billboard Mode 300F m ² /hr (3230 ft ² /hr) (high coverage, Faster RIP time, lower res. For BB applications)
RIP	
Software	GrandRip+ by Caldera or Production House by Onyx
Input formats	All popular graphic file formats, including PostScript, PDF, EPS, Tiff, PSD, and JPG
Front end software features	
	Hot folder, printing queue for multi job management, job ticket based operation, Standard and Billboard modes, hot folder, automatic calibration, step and repeat, error correction mechanism
